

RLA-UCON7-4P-PNP

PnP harness to connect an NTSC rear-view camera with male 4pin mini DIN connector with CV assignment.

Connects to 52pin connector on rear-side of all-in-one radio.
Rear-view camera must be NTSC.

Suitable for:

Iveco Daily 2019-

Hi-Connect Radio

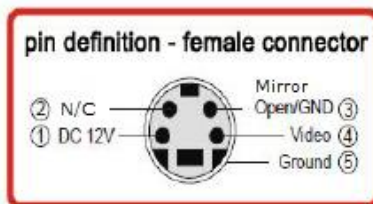

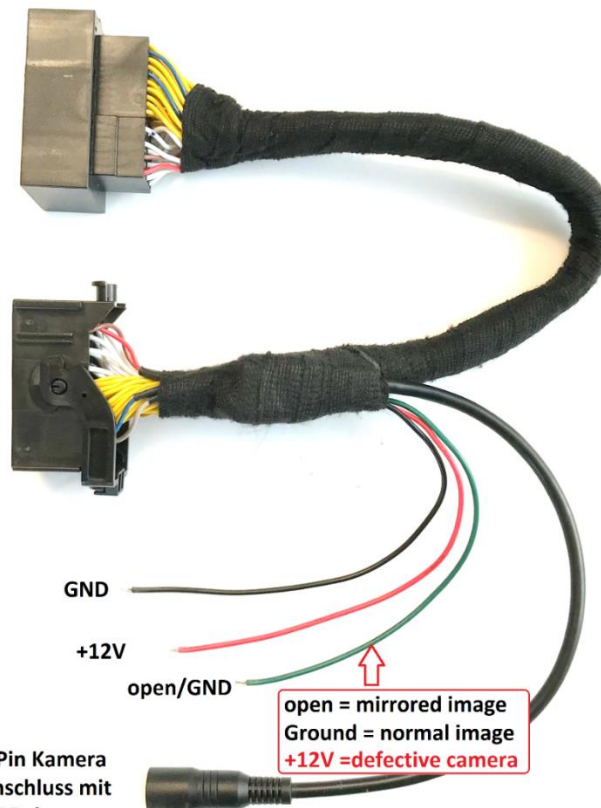

Citroen Jumper/Relay, Fiat Ducato8 2020-,
Opel Movano 2021-, Peugeot Boxer 2021-,

Uconnect 7 Zoll Daiichi Radio

On Iveco, coding via diagnostics is necessary if not already enabled by the factory.

On Daiichi, connect camera power to ACC (15), as otherwise, the automatic camera detection of the radio might fail.

4 Pin Kamera Anschluss mit CV Belegung

open = mirrored image
Ground = normal image
+12V = defective camera
